

## Profile

I am an accomplished software developer and architect specialised in fast and focusedly develop new or improving applications. For more than five years I have been writing code using the most modern and popular frameworks such as Node.JS, AngularJS and Angular 2+. For more than twenty years I have been writing software for the Microsoft platform, more than ten years for corporate web sites and intranet applications and almost seven years working at Microsoft Brazil, with major achievements. I am currently focusing on establishing a state of art knowledge on cloud solutions, through the integration of AWS, IBM, Azure and Google Cloud though API's, containerization, VM's and services. You give me a technology to work with, you see your investments return with profits graciously. My strengths include:

OOP and Functional Programming  
Database design and development  
Focused, but fun to work with  
Front-end development

Desktop/Web/Mobile Development  
Transactions optimization  
RestFul Design, Development and Usage  
Cross-platform cloud

## Technical Skills

**Languages:** C#, ES5/6/7, bash, TSQL, PL/SQL, Objective C, HTML5, CSS3, PHP, Python,  
**APIS:** Node.js, Angular\*, Google API's, jQuery, WP-CLI, Arduino  
**Methodologies:** MSF, RUP, Scrum, Agile, Kanban, Test Driven  
**OS:** Windows (Servers, EC2 and Softlayer), OSX, Linux (CentOS, Ubuntu, Debian)  
**Databases:** Sql Server, Oracle, MySql, MongoDB  
**Tools:** Visual Studio\*, Git, Mercurial, TFS, Subversion, SSH, Jira, SQL Management Studio, Oracle Plus, phpmyadmin, CA ErWin, Aptana, Xcode, Sublime, Gimp, Inkscape, Google Chrome Dev Tools, Firebug, Xampp, NGINX, Apache

## Certifications

- Microsoft Certified Professional
  - Visual Basic 6 for Desktop Applications
  - Visual Basic 6 for Distributed Applications
  - Developing Collaborative Applications with Outlook and Exchange 2000

## General Education

**Technical Data Processing** at Fundação de Escola e Comércio Álvares Penteado (São Paulo)

## Professional Experience Highlights

- **Softplan - Construtech Ventures** - SR. Full-Stack Developer and SR. Systems Analyst (since March/2018)
  - Understand innovational ideas in the construction business and put them to work in form of MVP's
  - Support the MVP's growth to an scaling, agile app development and initiative evolution
  - Integrate with peers' own initiatives and develop features and fix bugs.
  - Together with the IUX Team and Peers pursue the best approaches to develop new ideas and improve existing ones though poker planning meetings. The result of those meetings will determine the tasks assigned to each one in the next sprint.

- Pair programming
- Code Review
- **Technology:** Angular 5 and 6, Node.JS, Express, NPM, Docker, Docker-Compose, Flex CSS
  
- **Portal Telemedicina** - SR. Full-Stack Developer and Cross-Platform Cloud Manager (*May/2015-March/2018*)
  - Design architecture and develop the end-to-end of a new web app to manage the integration between patient, clinical exams, medical examination and report.
  - DevOps whatever tasks needed to keep Windows and Linux servers up, running, fast and secure on SoftLayer cloud environment from IBM, AWS and Azure.
  - Select, interview, create, apply and evaluate tests and train new developers to start producing fast and safely
  - **Technology:** C#, Sql Server, IIS, .NET Web API 2.2 and .Net Core, AngularJS, Git, SCRUM, ES6 Grunt Tasks, AWS, IBM, Google Cloud, Azure
  
- **Guru das Ondas** - Web Solutions Architect/Developer/Strategic Consultant/Security Agent (from *May/2014 to May/2015*)
  - **Technology:** Node.js, MongoDB, PHP, jQuery, MySQL, Amazon AWS (EC2, RDS, S3), Ubuntu, Git, Mercurial, NGINX.
  
- **Agência Fresh Media** - Web Solutions Developer and Architect (*October/2014 to February/2015*)
  - **Technology:** Ubuntu, Mac OS, AWS, PHP, JavaScript, HTML5, CSS3, jQuery, Word Press, Node.js, AngularJS, Express, Mongo, MySql, Podio.
  
- **Web sites development and maintenance** - Freelance Developer (*November/2013 to May/2015*)
  - **Technology:** Ubuntu, OSX, AWS, PHP, JavaScript, HTML5, CSS3, jQuery, Word Press, Node.js, AngularJS, Express, Mongo, MySql, Podio.
  
- **Intersena.com.br** - Freelance Developer (*October/2010 to March/2014*)
  - **Technology:** C#, ASP.NET, SQL Server
  
- **Grupo Cetil S/A** - SR Software Architecture - (*October/2008 - November/2010*)
  - **Technology:** C#, ASP.NET, SQL Server, CA Erwin
  
- **Sociesc Joinville** -ASP.Net/C# Instructor - (*April-June/2008*)
  - **Technology:** C#, ASP.NET, SQL Server
  
- **Imagem Tecnologia** - Systems Analyst/Developer - (*June/2007-October/2008*)
  - **Technology:** C#, ASP.NET, SQL Server, Google Maps API
  
- **Microsoft Brasil** - São Paulo (*July/1998 - September/2004*)
  - Innovation Center Program Manager (2002-2004)
  - Account Technical Specialist (2001-2002)
  - Applications Engineer (1999-2001)
  - Seminar Group Member (1998-1999)
  - **Technology:** Microsoft Development Platform, Integration with Oracle and Linux, Systems Design, Talks,
